About

I'm a 3rd-year B.Tech Computer Science student with a growing interest in web development. I like working through problems hands-on — most recently by building a small system that applies blockchain to a practical, everyday need.

Skills

HTML

Python

Project

Featured project

Health Record Using Blockchain

A system for securely storing and managing patient details, designed with small hospitals in mind — where a lightweight, tamper-resistant way to keep records can make a real difference.
